LAWTON

TUBES

The nations copper specialist

Introduction

Lawton Tube Company Limited is the UK's leading independent manufacturer and distributor of copper tube. Established as a Limited Company in 1920 and still family owned!

We form an indispensable link between one of the worlds most versatile metals and a wide variety of finished products.

These include tube, coils, degreased medical fittings, refrigeration fittings and tube for plumbing, heating, refrigeration and air conditioning systems, electrical bus bars, medical gas installations, automotive braking circuits (copper brake pipe) and a host of other engineering applications.

Copper has a proven performance and provides a cost effective solution to many pipe work and tube requirements on the basis of its inherent properties.

These include:

- High strength and ductility
- Excellent corrosion resistance
- Compatibility with a wide range of fluids
- High thermal and electrical conductivity
- Excellent fabrication and joining properties

With a range of kitemarked products from stock, supported by quality systems audited to BS EN ISO 9001, we aim to provide you with a first class service at competitive rates.

Lawton's plumbing and heating product range includes:

- Straight lengths
- Coils
- Fittings
- Plumbing Accessories

Demand Lawton's Copper for:

- Commercial and domestic plumbing and heating installations
- Hot and Cold water systems, including carrying potable water
- Commercial and domestic heating systems
- Sanitation systems
- General engineering applications

Lawton's Plumbing and Heating products were used in many prestigious projects including:

- Millennium Stadium
- UK Olympic Stadium and Village
- Celtic Manor Hotel
- Houses of Parliament

Demand Lawton Tubes for:

- Strength
- Quality
- Reliability

Straight Lengths and Coils

Lawton Tubes supply EN1057 in plain tube and plain coils. Straight length copper tube is available in various lengths. Diameters range from 6mm for small domestic installations to 219mm, for large commercial projects. We also have stocks of large diameter tubes available for immediate despatch. We also stock a range of soft temper coils from 6mm-22mm

As an alternative to traditional 1.2mm thick EN1057, and providing you with considerable cost savings without compromising operating performance, we can also supply Lawton LiteX, a hard drawn, lightweight, kitemarked tube, available in 35, 42 and 54mm*.

All straight 15mm – 54mm Copper Tubes are stamped with:

- Tube size
- Kitemark
- EN1057
- Temper (hardness)
- Manufacturer
- Date (quarter)

67mm tubes and above are stamped at either end of the tube.

FM 00451

* As hard drawn, these tubes are unsuitable for bending in "as supplied" condition

Plastic Coated Straight Lengths and Coils

Lawton Tube plastic coated copper is manufactured to conform to BS EN 13349 / 1057. All tube is covered with a seamless plastic coating which protects the copper tube against abrasion and aggressive materials. The tube is also colour coded to fall in line with UK local authority specifications and BS 1710: 2014, "Specification for identification of pipelines and services".

Lawton Tubes supply plastic coated in straight lengths and coils which are covered under a 25 year guarantee against manufacturing defects. The straight lengths are available in a range of sizes including 3, 5.8 and 6 metre lengths. Coils are in 20, 25 and 50 metre options.

In addition to the current extensive range, Lawton Tube offer the flexibility to manufacture plastic coated copper in virtually any size or colour to meet individual specifications.

*In accordance with BS 6700 all products should be designed, installed and used to the appropriate specification. For further details please see Lawton Tube technical guide for recommendations.

Class B Fire Rated Coil

A fast and easy solution that meets the needs of Euroclass EN 13501-1 Rating of BL-s1,d0

- Backed by Lawton's reputation for quality, service and customer care for over 100 years.
- Meets European Building and Fire Safety Regulations
- PE Foam B rated insulation matched with Lawton Copper tube gives total product confidence
- Suitable for Heat Pump and Air Conditioning applications
- Available in 20mtr & 25mtr coils, in both 9mm and 13mm thickness
- Easy installation. No glue, tape or messy powder
- Using pre insulated coil achieves pipework installation in less than half the time of conventional methods
- New improved profile developed for easy splitting during installation

Fittings & Accessories

Lawton EN1254-1 End Feed range are seamless, one piece fittings which make them stronger and easier to use. They are available from 8mm to 219mm for use with Lawton's entire range of EN 1057 copper plumbing and heating tubes.

Lawton Solder Ring fittings contain Lead-free solder and are available from 8mm to 54mm and also comply with EN1254-1.

Lawton Compression fittings are available from 8mm to 54mm and comply with EN1254-2.

Lawton Brass and Chrome Pipe Rings are for use with EN 1057 copper tube on ceilings and walls. These are available from 12mm to 159mm in all size threads.

Plumbing Solder is available in 500g reels in both Leaded and Lead-free versions. Manufactured to EN ISO 9453, we are confident in its ability to provide perfect joints on Lawton Copper Tubes and End Feed fittings.

Lawton Soldering flux is a paste suitable for use with copper plumbing fittings and tubes and is available in 113g (4oz) and 453g (16oz) jars. It is fully water soluble and complies with EN ISO 9454.

End-feed fittings BS EN 1254-1

Lawton's ACR product range includes:

- Straight lengths
- Coils
- MaxiPro
- Lawton K65
- Pre-Insulated Coil
- Fittings
- Brazing rods

Demand Lawton's copper for:

- Air conditioning and refrigeration installations
- CO₂ supermarket refrigeration
- Commercial and domestic applications
- Bespoke OEM applications
- General engineering applications

Lawton's ACR products were used in many prestigious projects including:

- UK Olympic Stadium and Village
- All major UK supermarkets
- Harrods of London
- The Shard
- Red Bull F1 HQ

Whether you're talking about Lawton business or Lawton product, Lawton's Copper Tubes offer:

- Strength
- Quality
- Reliability

The ACR industry is a demanding one, so demand Lawton Tubes

Copper Straight Tube EN 12735-1

Fittings & Accessories

Manufactured to ASME B16.22 Lawton's ACR fittings are all seamless, one piece fittings, which makes them stronger and easier to use. All Lawton's fittings are available from 3/16" to 4 1/8" for use with Lawton entire range of ACR tubes.

Regularly needed for large supermarket projects we can supply high pressure fittings for CO₂ applications. All fittings from stock for quick delivery.

Wherever possible all Lawton fittings are engraved for additional traceability.

We offer a variety of silver solder brazing alloys suitable dependent upon product type and application.

Reducing Coupling C x C

>B< MaxiPro is press fitting system for use with Lawton Copper Tubes for Air-Conditioning and Refrigeration applications. >B< MaxiPro fittings can be used with soft annealed, half-hard or hard Lawton Copper tube conforming to both EN-12735-1 or ASTM B-280.

>B< MaxiPro fittings provide a secure, permanent leak-proof joint which can be completed in a significantly less time than a typically brazed joint. Another big advantage to using >B< MaxiPro is that it avoids the need for a hot works permit and the risk of fire on site.

Other benefits of >B< MaxiPro include:

- **Secure, permanent leak proof jointing**
- **Time and cost saving compared to typically brazed joints**
- **No need for hot works permits**
- **No need to Nitrogen purge**

The three point press of the >B< MaxiPro fitting means that with the press each side of the bead and one compressing the O-ring meaning a very secure and permanent joint is achieved. A high quality HNBR O-ring forms a leak-free joint.

MaxiPro Tool & Jaw Kit

Lawton K65

The tube system for high pressure applications

In refrigeration, and in particular in the area of supermarket refrigeration systems, more and more ecology-oriented plant concepts are being implemented.

The modern, environment-friendly refrigerant CO² that is used here leads to high operating pressures. For these applications the new K65 tube system is available.

Tubes and fittings are made of the high-strength copper alloy K65 which has already been used with success in electrical engineering and the automotive industry. K65 allows economical installation of refrigeration systems with operating pressures up to 120 bar.

K65 has good processing properties which are similar to those of copper. K65 tubes may be brazed to K65 fittings in the traditional way. K65 fittings are manufactured by IBP Conex. Safety ensured by two well-known manufacturers K65 tubes and K65 fittings fall under a joint system guarantee that includes CO² applications up to 120 bar for the items listed.

Easy to identify – even after installation

K65 tubes and fittings are marked appropriately, so that the system components can be clearly identified at all times. In addition, the material is slightly magnetic and can easily be distinguished from copper by means of a neodymium magnet – a helpful, practical advantage.

Economical

The main advantage is the mechanical strength of K65. Because of the high strength of the material, the K65 product can be made with comparatively thinner walls. The light weight of tubes made of K65 means not only a saving in material, but also easier handling, for example when mounting the tubes on ceilings.

K65 Tubes for CO² Applications

OD (inches)	80 bar available in 6 metre lengths	120 bar available in 6 metre lengths

Class 0 Fire Rated Coil

Backed by Lawton's reputation for quality, service and customer care for over 100 years.

- Meets UK Building and Fire Safety Regulations
- Class 0 tested and passed in the UK for complete peace of mind
- Nitrile Butadiene Rubber (NBR) Class 0 rated insulation matched with Lawton Copper tube gives total product confidence
- The only Class 0 Pre-insulated Coil on the market for the UK and Ireland
- Suitable for Air Conditioning and Refrigeration applications
- Available in 20mtr coils, in both 9mm and 13mm thickness
- Easy installation. No glue, tape or messy powder
- Using pre insulated coil achieves pipework installation in less than half the time of conventional methods
- New improved profile developed for easy splitting during installation

Pair Coil

Part Number	Tube Dimensions	Insulation Thickness	Lengths	Pallet Qty (coils)
LPC1438CO-9MM	1/4" x 0.71mm & 3/8" x 0.81mm	9mm (3/8")	20m	11

Part Number	Tube Dimensions	Insulation Thickness	Lengths	Pallet Qty (coils)
LIC1420CO-13MM	1/4" x 0.71mm	13mm	20m	16

Class B Fire Rated Coil

A fast and easy solution that meets the needs of Euroclass EN 13501-1 Rating of BL-s1,d0

- Backed by Lawton's reputation for quality, service and customer care for over 100 years.
- Meets European Building and Fire Safety Regulations
- PE Foam B rated insulation matched with Lawton Copper tube gives total product confidence
- Suitable for Heat Pump and Air Conditioning applications
- Available in 20mtr & 25mtr coils, in both 9mm and 13mm thickness
- Easy installation. No glue, tape or messy powder
- Using pre insulated coil achieves pipework installation in less than half the time of conventional methods
- New improved profile developed for easy splitting during installation

Lawton's medical product range includes:

- Straight lengths
- Fittings
- Medical Accessories

Demand Lawton's Copper for:

- Medical Gas pipelines
- Vacuum Systems
- Other medical gas equipment compliant to HTM02/01

Lawton's Medical products were used in many prestigious projects including:

- Southmead Hospital UK
- Sidra Hospital, Qatar
- King Faisal Hospital, Saudi
- Hamad Medical City, Qatar
- Cleveland Clinic, Dubai
- Square Hospital, Bangladesh
- New South Glasgow Adult Hospital, UK
- Jaber Al Ahmed Al Jaber Al Sabah Hospital, Kuwait

Demand Lawton Tubes for:

- Strength
- Quality
- Reliability

Pipeline solutions for medical installations

At Lawton we supply kitemarked degreased copper tubes to BS EN 13348, meaning all Lawton products are regularly audited by the British Standards Institute. Straight length copper tube is available in 3m & 6m lengths. Diameters range from 12mm to 219mm, for large hospital projects. We have stocks of Lawton largest diameter tubes available for immediate despatch.

All Lawton medical tube complies with the latest National Health Service (NHS) HTM 02-01 spec.

Specific Benefits Include:

- Specifically designed for copper medical gas and vacuum systems. Superseding earlier 'hybridised' copper tube standards such as BS EN1057 & BS 2871 Part 1 Table X quoted in HTM 2022 & NHS engineering spec. C11
- Tighter limits on cleanliness determination.
- Improved identification to avoid confusion with

similar sizes of water service tube. (EN1057 spec)

- Lawton Tubes were the first British company to be awarded the kitemark licence to supply to this standard over 10 years ago.

Sizes 12 - 108mm copper tubes are stamped with:

- Tube size
- Kitemark
- EN 13348
- Temper
- Manufacturer

In addition 12mm to 28mm sizes are inkjet marked with additional data to enable traceability i.e. date and batch coded.

- Manufacturer
- Date (quarter)

67mm tubes and above are stamped at either end of the tube.

Medical Grade Degreased Copper Tube – EN13348

Fittings & Accessories

Lawton's end feed fittings, manufactured to BSEN 1254-1; 1998 part 1 are seamless, one piece fittings, which makes them stronger and easier to use.

All fittings are specifically designed for copper medical gas and vacuum systems. We supply individually bagged ex-stock from 12mm up to 219mm.

Munsen rings, used as copper tube supports on ceilings and walls, are available from 12mm to 159mm in single and double M10 threads.

Munsen rings, hospital saddle brackets and male and female back plates can all be supplied in brass and chrome finishes to BS1845:1984 CP4

Silver brazing rods are available in various thicknesses and lengths, silver content can be 2%, 5% or 45% and conforms to ISO 17672:2010.

Specific Benefits Include:

Complies to NHS (UK) Health Technical Memorandum 02/01 (HTM2022) and C11.

All fittings supplied contain less than 100mg/m² (0.01mg cm²) of hydrocarbons on the degreased surface.

Improved identification to avoid confusion with similar sizes of water service fittings.

All items ex-stock and packaging is suitable for exporting.

End-Feed fittings BS EN 1254-1
